

## Speech Self-Evaluation Questions

Name: Emma Feustel

Class: \_\_\_\_\_

As you recall your speech, answer the following questions. This assignment is due two days after you present your speech. Your answers do not need to be in complete sentences they just need to be complete thoughts.

1. Evaluate the success of your introduction.

I feel like my speech was very top heavy.

2. Explain why your main points were/were not clearly presented.

I spent a lot of time on points 1 and 2 and sped through point 3.

3. Did connectives clearly indicate movement from one part of your speech to another? Why/why not?

I feel like my transitions were pretty good.

4. Evaluate the success of your conclusion.

It was very abrupt. I could have done better.

5. Evaluate your delivery.

I was very jittery (note to self, lay off the coffee before speeches). It could have been smoother.

6. Evaluate the overall success of this speech.

I think overall it served its purpose but it was choppy.

7. Do you have other comments about this presentation?

I don't think I actually described Sekhmet as being a lion goddess. That's like, her main thing. I had a photo, but without it, I don't think that was clear.

8. What grade (A-F) would you assign this presentation? Please refer to the grading criteria and the evaluation sheet before you give the grade.

Probably a B. It could have been better.

9. What did you learn from this presentation that will help you prepare your future speech? List at least three things that you plan on working on.
